

Maintenance Technician Automation KP Components A/S

For our maintenance department at *KP Components A/S*, we are looking for a new colleague for the day shifts team. The production at *KP Components A/S* consists mainly of CNC cutters and lathes. In our production we have a very high degree of automation, with KUKA robots among others. The department consists of 16 colleagues spread over 3 shifts.

The main task in the maintenance department is to support the high degree of automation in the production, including ensuring that no breakdowns occur.

In close cooperation with colleagues and operators, you will be responsible for the ongoing maintenance and repair of automation systems and robots.

The tasks will be:

- Preventive and continuous maintenance of automation systems and robots
- Repair, maintain and troubleshoot automation systems and robots
- Ad-hoc tasks and solutions for production at production shutdown

As a background, we expect that you have a professional education, e.g. automatic technician, auto mechanic, automatic mechanic, boilermaker, electrician, industrial technician or agricultural machine mechanic. Other professional training may also be relevant. Crucially, you have a professional background and great interest in automation, robots and maintenance. If you do not have much experience with automation, we are happy to support in your training. We would like you to also have experience with repair and maintenance, but we are prepared to set aside time for training.

As a person, you

- work independently and are problem-solving
- are systematic
- are quality conscious and responsible
- are open and outgoing and willing to collaborate and teach others
- are service minded and willing to learn new and to attend courses
- can read and speak English
- and not least have a good mood

You will refer to Maintenance Manager, Bo Kristensen.

Bo can also answer any of your questions on phone +45 5172 4373 or e-mail bbk@kp-components.com

Are you interested?

Please send your application to Annette Mosegaard, Group HR Manager, jobbank@kp-components.com. We are looking forward to hearing from you!
